

Let's Talk Tokens: Horses

by Dave Harvey R-182

There are an amazing number of Horses on slot tokens. On many of them the engraver has outdone himself on some truly fine art work.

Note Photo #1 - Wild Horse Cripple Creek, Colorado, The rippling muscles are just great.

Reminds me of the time I came upon a two-horse trailer in Montana one afternoon. It was pulled by a pickup with two cowboys in it. The bumper sticker on the back read: "Don't Be What You See".

Moving right along Photo #2 - Prima Donna's Carousel. Lots of detail.

Photos 5 and 6 - Mustang Club. Everyone knows the end of the trail.

Photo #7 - Pony Express. Lots of detail. This guy is really after it.

Photo #8 - Mavericks. Couple of Dancing Mavericks on this one.

Photo #9 - Sport of Kings. Down the stretch they come.

Photo #10 - Tropworld Diving Horse. This one depicts an historic act from Atlantic City. If you look close at Photos 9 and 10, I think the same artist did both tokens. What do you think? Besides the 10 tokens pictured here, there are nine more you may want to collect. They are: Prairie Knights, Western Village, 2 types, Casinos Austria, Wildfire, Bronco Billys, Badlands Saloon, Turf Club, and Blazing Saddles.

I am sure there are probably more, but this is all that I have.

May you always find what you are looking for. Happy Collecting.

Dave
